Harry Deardourff has leased the Opera House and will open it soon as a high-class vaudeville theatre, giving performances every evening, with new features each week. The theatre will be in the Orpheum vaudeville circuit and will thereby get the best people in the vaudeville line.

Two young boys, Edgar Johnson and George Heath, were arrested Monday for destroying property by stoning—just for the fun of the thing—the front door of Benjamin Kerst's residence on North Broadway. They had a hearing in juvenile court and pleading guilty were fined \$5.00 each and placed on probation.

W. R. Miller, 329 1/2 East Third street, Dayton, Ohio, visited his aged mother last week, who now makes her home with her daughter, Mrs. Huffman, in Arcanum. He also visited his brother in Gettysburg and a sister in Bradford, and at the latter place had the pleasure of attending the 21st birthday anniversary of his sister's oldest son, George Washington Brubaker, on last Friday. W. R. has become to be quite an entertainer in music and palmistry and on this occasion was at his best, highly entertaining the assembled guests with choice selections and reading of palms. He is as jovial and jolly as ever.

### TOO LIFELIKE.

Curious Reason For Rejecting the "Portrait of a Doctor."

Concerning the prize, "Portrait of a Doctor," by Seymour Thomas, there is a very amusing story.

Several artists had made paintings of the gentleman who is represented in this celebrated picture, but the family decided that none of them was "lifelike enough."

After visiting the Thomas studio the gentleman's relatives commissioned this artist to essay the task.

The work went on well, and the picture was completed. Every one was delighted. All declared—friends, family and enemies—that it was a "lifelike likeness."

One day, before the picture had been sent home, the wife of the doctor called with her sister-in-law. This woman had been suffering from nervous prostration and had come to spend several months with her brother for a rest.

Instantly on entering the studio she threw up her hands and exclaimed in a hysterical, horrified tone:

"Oh, my dear, my dear! How much like Robert that is! Oh, it is horrible! I couldn't stand it in the house a moment. Why, it looks just exactly like him, and I'd almost think him about to speak. Don't take it—it's uncanny!"

### BREAKFAST.

Having the Morning Meal Served in One's Bedroom.

The china for a morning meal, when served in the bedroom, according to Dress, should be dainty in every particular. Coffee sipped from a delicate cup seems improved in flavor, and daintiness adds a charm to the delicacies that they contain and give an added delight to a comfortable breakfast.

The matter of the proper tray to use in the bedroom is an important item that should not be neglected in the consideration of this subject. Favor leans toward the one made of paper mache. When painted white with a gold band, it supplies a neutrally tinted background, which harmonizes with a setting of almost any style of china. It has the added advantage of lightness also, weighing less than a pound. China trays of the same proportions are heavy and cumbersome, sometimes weighing several pounds.

There is still another factor of this dainty service that demands thoughtful consideration. It is the means of serving the breakfast—the table or other receptacle that is used to hold the tray. Many women are adopting the hospital system, as it is distinctly the most convenient and expeditious way. The table is so made as to swing over the bed when in use and to fold down against the metal standard when it has served its purpose. By this means of adjustment it may be put away when not in service, a feature that recommends it strongly, for it cannot be considered a slightly article of furniture. For this special purpose, however, there is nothing more strictly suitable, even though it be not beautiful, for it is compact, easily taken care of, and, on account of the little appliances that are used to adjust it, it forms the most comfortable sort of bed table.

### HOUSE FURNISHING.

Young Wives of Limited Means Should Start Slowly.

"One of the most frequent mistakes made by young wives," said a matron known for her sensible advice on topics of the household, "is that of filling the house with furniture at the outset of their married life."

"They like to feel that their friends find nothing wanting, and they forget that, starting out with too full an equipment, they must necessarily keep that unchanged for several years. There is no room to add new things, and to dispose of old furniture that is not worn out is a serious loss. The proper thing to do is to start out with just enough to be comfortable."

"From time to time little things may be added as they are found necessary. In that way one never feels like a back number. At the same time one does not have to turn everything topsy turvy in order to be up to date. Another important thing in this connection is to resist the temptation, frequent when a young woman has everything she needs in furniture, to spend on entertainment money and time she can ill afford. Many young matrons have become broken in health from that."

### THE HOME DOCTOR.

Before applying a poultice cover the skin lightly with glycerin to prevent any particles from adhering.

If troubled with pleurisy, apply dandelion cloths wrung out of hot water, to which a small quantity of mustard has been added. Change the cloth often.

Hot milk sipped slowly is efficacious for relieving the throat irritation that frequently follows a severe cold, or is an accompaniment of a bronchial cough.

Two ounces of boric acid crystals dropped in a glass quart jar and the jar filled with water makes a saturated solution. It is useful in cases of burns and is an effective antiseptic.

The old time formula for sulphur and molasses blood tonic is: Two ounces of sulphur, an ounce of cream of tartar, a pint of molasses. Take a spoonful three mornings, skip three, then take three more.

### A Perfect Hanging Skirt.

To insure a perfect hanging skirt finish the top of the skirt and put it on the one who is to wear it. Now put on a stiff belt directly over the band. Have it tight enough so it cannot sag. Take a strip of cloth or stiff paper longer than you want your skirt, loop it over the belt and fasten. Have loose enough so it will slip on the belt. Now make the skirt the desired length of the skirt, slip this around on the belt, putting pins in the skirt at the end of the strip, not more than six inches apart. Take the skirt off, turn the hem by your pins and baste. Now take a piece of pasteboard the desired width of the hem, measuring every few inches. Baste again and stitch. Your skirt will be the same length all around.

### Use a Tray.

It saves many steps if when putting dishes away you carry them to the china closet in a tray, as it accommodates so many more dishes than one can carry in the hands. A tray should be used also when removing them from the table. This is so frequently neglected and so many extra steps have to be taken that it is worthy of being mentioned.

### He Had an Opinion.

At the time of the ecclesiastical trial of Professor Woods of Andover Theological seminary for alleged heresy, a retired New Hampshire clergyman while making a journey by rail was absorbed in reading the details of this trial as reported in the Congregationalist. A sporty looking individual who sat beside him was absorbed in the pages of a different periodical.

"My friend," said the clergyman, "what do you think will be the result of the great contest that is now agitating the nation?"

### GERMAN GLEANINGS.

In north Germany 220,000 pounds weight of amber is dug yearly. Appendicitis has made such steady progress in Germany from year to year that medical societies have taken it up for special extended study.

Prussia is said to favor a tax or impost on ships passing up and down German rivers. The object of the measure would be to increase the price of imported grain, thus favoring the empire's farmers.

In Germany 3 women are employed as chimney sweeps, 7 as gnomes, 19 as brass and bell founders, 117 as apprentices, 370 as farmers and millers, 300 as masons, 8 as stonecutters, 2,000 in marble, stone and slate quarries. In all 5,500,000 women earn their living in trades and professions.

### MODES OF THE MOMENT.

Silk gowns for both daytime and evening wear are to be very fashionable. Plain Brussels net veils, with lace borders spotted with champlee dots, are said to be the successors to the net veil with the narrow plaited ruffle.

The circular cloak is prophesied for future evening wraps. Already they are assuming shawl-like lines, and even kimono sleeves will not do if larger sleeves underneath on the evening gowns are to come into vogue. Robe dresses in lawns, muslins and chiffon are features of spring fashions. Most of these have floral or conventional designs over them, while the border near the edge usually introduces a new but harmonizing color in its rather oriental execution.

PHYSICIANS.

### DR. KUTCHIN

EX. U. S. EXAMINING SURGEON, Late of Chicago, Greatest Living Specialist for the Treatment and Cure of all Long-standing and Difficult Chronic Diseases and Diseases of the Blood and Nervous System. Consulting Surgeon at Maplewood Sanitarium.

Will, by special request, meet his many patients in this country every month for the next year, and examine all afflicted free. Ohio office, Columbus, O.

The noted Author and Medical Lecturer, and one of the greatest living specialists for the treatment and cure of all Long-standing and Difficult Chronic Diseases, has consented to visit this country and meet his many patients and friends, and give a FREE LECTURE on the AFFLICTION OF CHRONIC DISEASES, and the latest and best treatment for each disease as the regular doctor is unable to give.

CHRONIC DISEASES. The Doctor treats no acute diseases, but makes a specialty of chronic and long-standing diseases. Cases given up by other doctors and pronounced incurable, he most desire to see. Dr. Kutchin has treated over 12,000 cases in Ohio in the last two years, many of which had been pronounced incurable by other doctors. Now they are cured, and many are on the high road to health.

EXAMINATIONS FREE TO ALL. Whenever it is known that Dr. Kutchin is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease, and determining the best treatment, he is able to do better than the sick can do for themselves. It is a wonderful gift for anyone to possess, and Dr. Kutchin's diagnostic power is unsurpassed.

HIS IMPROVED METHODS OF TREATMENT. Art and pleasant; agree perfectly with the most delicate Lady or Child, and reduce strength can be used while at work, and give the greatest possible benefit in the shortest possible time. Patients can consult him or communicate with him as often as they desire, during the whole time required for the cure, without need to where they may be, and without extra charge, thus rendering the treatment as successful and satisfactory as though they were living next door to each other.

MANHOOD PERFECTLY RESTORED. Quick, painless and certain cure for Impotency, Lost Manhood, Prostatitis, Leucorrhea, Weakness and Nervous Debility, also for Protrusion, Varicocele, and all private diseases, whether of long or short standing. Dr. Kutchin's treatment is the only one that cures, and restores the sexual functions, speedily and permanently. Consultation free and strictly confidential. Absolute cure guaranteed in every case. No risk incurred.

DISEASES OF WOMEN. Such as have baffled the skill of other physicians and remedies. Dr. Kutchin quickly cures Cancers, Tumors, Fibroid and Polypoid. Growths cured without the use of the knife. No cutting, no pain, no danger.

A LIFE OF EXPERIENCE. The Doctor has had a whole life of study and experience in his profession, and enjoys advantages which fall to the lot of but few. After attending his Full Course in the Medical College, and graduating with the highest honors, he was content to stop there, but has since attended other Colleges, and several times reviewed the whole profession; has also traveled extensively for the purpose of improvement, having visited the best Medical Colleges, Hospitals, Dispensaries, Eye, Ear, Lung and other Medical and Surgical Institutions, traveling every advantage within his command, and devoting the best years of his life to the study of his profession in all its branches.

LATEST DISCOVERIES AND IMPROVEMENTS. Dr. Kutchin has received the most approved instruction in Analytical and Microscopical Examinations of the Blood, Urine, etc., which are now considered indispensable to a correct diagnosis in many of the most difficult cases. He is therefore able to give a more accurate diagnosis than any other doctor, and is therefore able to give a more accurate diagnosis than any other doctor.

FACTS FOR MEN OF ALL AGES. By reason of false modesty the youth of our land are kept in ignorance of the numerous results which certain salacious indirect practices produce. Dr. Kutchin has for many years enjoyed the distinction of being the most successful and celebrated specialist for the treatment and cure of these diseases. You may consult him with complete confidence. If all the maladies that afflict mankind there is probably none about which physicians in general practice know so little.

DELAY IS DANGEROUS. Many diseases are so deceptive that hundreds of persons have them before they even suspect it. They know they are not well, but are perfectly ignorant of the deadly fangs which are fastening upon them, and must, sooner or later, secretly destroy them, unless relieved by a skillful hand. Are you afflicted? Your case may now be perfectly curable, but remember, every moment of neglect brings you nearer to incurable stages, when, perhaps, the most skillful physician can render you no assistance. The present is your chance, for the future may be too late. Consultation free. Each person applying for medical treatment should send or bring 2 to 3 ounces of urine, which will receive a chemical and microscopical examination. Persons unable to visit, or those who are traveling, should call and see the doctor. Dr. Kutchin's treatment is the only one that cures, and restores the sexual functions, speedily and permanently. Consultation free and strictly confidential. Absolute cure guaranteed in every case. No risk incurred.

Call and be examined. Let them hear the cause of your trouble. Take 3 capsules in from three to five hours without gratification. The remedies for the whole course of treatment are furnished from the Office or at the Institute, all at once or by the month.

CONSULTATION, EXAMINATION AND ADVICE FREE TO ALL AT THE MONTH.

E. T. Fifth, Plaintiff vs. Darke Common Pleas Court.

William A. Boice et al., Defendants.

William A. Boice, John J. Burkholder, Arthur E. Drill, and Artie E. Drill, each and all of the above named defendants, will take notice that on February 22, A. D. 1907, the plaintiff, in said court, duly commenced a suit in equity against each and all of the said defendants to establish a vendor's lien for the sum of \$500, with interest thereon at 6 per cent from February 1, A. D. 1906, on a 4-acre tract sold and conveyed to the defendant, William A. Boice, and by him sold and conveyed to the said Arthur E. Drill, situate in Sec. 18, Township 14, of Range 1, east, Mississippia Township, Darke County, Ohio; for specific performance of a contract whereby the defendant William A. Boice, agreed to assume and pay as a part consideration in payment of said 4-acre tract a mortgage calling for said sum; to have the same transferred and cancelled from lots 145, 146, 147, 148, 149, 150, in Highland Place Addition to the City of Greenville, Ohio; and for other equitable relief.

The said parties are each and all required to answer the petition in said action on the 25th day of April, A. D. 1907, or judgment will be taken against them and each of them for the said sum of \$500, and the mortgage against the said lots ordered cancelled and the lien transferred to the said farm.

Witness my hand and seal of said court, this 21st day of February, A. D. 1907.
